## Art Chicago

by Walter Robinson

Everyone was talking about **Janet Pihlblad's** *Window for Thoreau* at **Gallery A**. The \$16,000 work includes a minimalist white desk and chair, a working word-processor and printer that visitors can use, and a dramatic window covered with live moss. "I have to mist it three times a day," said Pihlblad. The printer uses a font based on **Thoreau's** handwriting designed by the artist herself.
